DIGITALLY RECORDED SOUNDS OF THE CANADIAN WILDERNESS ON CD

WOODLAND SUMMER • ECD1101

Digitally recorded sounds of the Canadian Wilderness. Recorded in the spring & summer by Paul LaChapelle. The enlivening sounds of early morning fold gently into the repose of a lazy afternoon. Songbirds fill the air as the music of a passing stream lingers in the background meadows. These are the wilderness sounds of a *Woodland Summer*.

"I went into the woods because I wished to live deliberately, to front only the essential facts of life, and see if I could not learn what it had to teach, and not, when I came to die, discover that I had not lived." From *Walden* - Henry David Thoreau
